

## Undergraduate and Graduate Course Planning Form for Accelerated Master's Degree Application

Use this course planning form to list all courses in your undergraduate program. Please **do not** list graduate level classes that are counting towards only the Master's program (those go on page 3). For single degree students, the Engineering undergraduate degree must be completed in eight (8) semesters. Students pursuing a coordinated dual degree program must complete their SEAS Undergraduate degree in ten (10) semesters.

Full rules and requirements can be found [here](#).
