

CENTER FOR
Plastics Innovation

Summer 2024

UNDERGRADUATE RESEARCH PROGRAM

In the Center for Plastics Innovation (CPI) summer program, students will spend the summer tackling critical issues surrounding plastics waste recycling and upcycling in an interdisciplinary environment.

Research opportunities in **polymers, catalysis, enzyme engineering, and data science** at the CPI.

PROGRAM LOGISTICS

10-week, full-time summer research experience

\$6,000 stipend for each student

University housing supplement for external participants

Application deadline: **February 15, 2024**

APPLICATIONS ARE OPEN!

To apply, you'll need:

1. An updated resume
2. Unofficial transcripts
3. Personal Statement
4. Name of academic reference
